***Jessica Cox Wants to build the first exclusively foot-controlled airplane in history***

an RV-10 customized for those with limited abilities

YOU can help make this dream become a reality for future generations!

<https://www.impossibleairplane.com/>

**You can book Jessica to ignite your event, inspire your audience:** <https://jessicacox.com/>

You might wonder why I devote such attention to Jessica Cox? Well, she is a most extraordinary woman — a delight to know, an inspiration for anyone feeling challenged by life. *And* she flies an Ercoupe! I unwittingly purchased the Ercoupe in which she learned to fly ... and *then* I learned about her. She has a story that everyone should know and not enough people do — *including* pilots, *including Ercoupe pilots* (I have flown since 1977 and did not know that she had been licensed in 2008 as an armless pilot). So ... it is natural for me to want to help share her story with the world. Now ... ***I'm asking you to share her story as well.*** Thanks! — JPT
